**FIRE
FLAMES**

It gives us much pleasure to thank those who are at work cleaning up. Our suggestions must have been read by a great many careful residents.

We are still handicapped by the difficulty of disposal of much inflammable materials. Because of the long distance required to haul brush and other stuff that burns, it is necessary to dispose of much by fire. Even then we are not allowed to permit very much smoke to arise and create "smog."

The "Smog Control" is in power and can prohibit any burning that creates too much smoke. Do not be foolish enough to start a fire without the inspection of a fire fighter. The advice given will throw the responsibility onto the shoulders of the fire fighter.

It really is not safe to apply a match to a pile of rubbish until you are certain that it can be controlled in case of an emergency. It is only because we observe these rules that we are able to report a very low fire loss each year.

A newly married wife of a fire fighter appeared at the meat counter. "I bought three or four hams here a month ago and they were fine. Have you any more of them?" Butcher: Yes, ma'am. There are ten of them hanging up there now." Young wife: "Well, if they're off the same pig, I'll take three of them."

George Norris asked Jim Heasley if he acts toward his wife as he did before he married her. "Exactly," answered Jim. "I remember how I used to act when I first fell in love. I used to stand in front of her house, almost afraid to go in. I do the same thing still. Some nights." (Especially after having been out with Charlie Brown and Duff.)

Progress continues and despite the inconvenience of torn up streets, sidewalks and so on, there would be little to brag about if we had never borne it.

Great will be the day when we need not worry about that blank cesspool. Nor worry about our neighbor's cesspool. May we awake and be happy. There are bound to be those who think the idea unworthy. We could go back to the days of the little sheds. Why not?

There is beginning to be some concern as to where to hold the Fourth of July picnic. Suggestions have been made and there is little doubt but a location will be found that will be satisfactory and convenient for fire fighting. (The object is of course to keep the fire fighters in the city on the Fourth of July. Just imagine if all the men of the fire department went to the beach on that glorious day, and there was a fire.)

**Masonic
Dinner and
Program Fri.**

Songs by Bart Gormley, popular Irish tenor of Pasadena who has just completed successful engagements in Las Vegas and New York City, will feature the entertainment planned for the Sierra Madre Masonic Lodge monthly dinner at the Temple tomorrow evening at 7 o'clock.

This event is open to all Masons, their families and their friends.

**Ear Clinic
To Be Held
At School**

A Hearing Clinic for Sierra Madre school children will be held at the schoolhouse next Thursday (May 26), School Nurse Hortense Wells announced. Dr. W. D. Currier, Pasadena otologist, will be examining physician.

Mrs. Wells has conducted audiometer examinations of all students, screening out those with possible hearing defects. The cases she felt required further examination or attention will be examined at the clinic by Dr. Currier.

The clinic will give the final diagnosis on the cases referred to it. Recommendations and advice will be given and follow-ups will be made on each case, Mrs. Wells said.

The audiometer used in the screening tests was given to the school by the Civic Club, the Lions Club, Kiwanis Club and the P.T.A.

It has been estimated, Mrs. Wells said, that from 4 to 10 per cent of all school children have some loss of hearing, ranging from a slight defect to severe losses.

"An early spotting of those who have even the slightest impairment, followed by expert examination and care, will do much toward preventing the handicap of deafness in the majority of cases," she said.

"And though hearing conservation as a whole is a community undertaking, the schools should and are leading the way in developing adequate testing programs."

Further hearing clinics are being planned at the school for late spring of this year or early fall of the next school year.

**MARVIN PRATT DIES

The death of Marvin Pratt Sunday afternoon came as a shock to many of his Sierra Madre friends. For the past year he had been fatally ill at the Sawtelle Veterans Hospital, where he passed away.

Surviving his are his wife, Claire, and three-year-old daughter, Penny Janine, and his father, Lucien Pratt, of Lynwood.

**Check Your Car;

Final figure for the local Cancer Fund Drive is \$710, states Mrs. Harold Pangborn, chairman. Organization and individual contributions during the past week brought up the last announced figure of \$575 by \$135.

Funds donated this year more than doubled those of last year. "The community co-operation was as fine as we had hoped," said Mrs. Pangborn.

STEINBERGER, NORRIS HOLD FIRE BADGES

Two of the five original charter members of the Sierra Madre Volunteer Fire Department are still living. They are Mayor Milton Steinberger and George Norris.

Last week, with the passing of Alois Karger, also one of the five charter members, it was inadvertently reported that Mr. Karger had been the last survivor.

Both Steinberger and Norris cherish miniature badges which were issued to the men who were first in the fire department which today has 20 active and 10 auxiliary members, with James C. Heasley as Fire Chief.

Care For Children At PTA Meet Today

Mothers who plan to bring their children to the PTA meeting today (Thursday) at 2:45 P. M. will find that adequate care will be provided for them.

Three of the PTA mothers will be on hand. One will watch the kindergarten children on the playground, one will be in the kindergarten room and one on the first grade playground. It is also planned to have one or two of the teachers on the playground to assist.

Jungle Bread On Civic Club Program

A moving picture, photographed in vivid jungle colors entitled "Jungle Bread" will be featured at the program meeting of the Civic Club to be held at the Park House next Thursday, May 26, at 8 p. m.

"Jungle Bread" was filmed in the deep jungle of Dutch Guiana, South America, and shows how a very primitive people make bread from a root which, before processing, is so poisonous that three and one-third ounces of the root's juice, when taken internally, are enough to cause death.

The film was a year in its making and was produced by Van de Kamp's Bakeries after a 15,000 mile round trip.

The South American Bush Negroes use the root of the bitter cassava plant as a source for flour. After extracting the poison from the root (this process is a highlight of the film) the natives make flour, then bake it on an open hearth into a very nourishing disk of bread.

Botha C. Meilbron of Van de Kamp's, who took the pictures in the almost impenetrable jungle, will comment on the various experiences encountered during his journey, as well as answer any questions by members of the audience following the showing.

A collection of some of the jungle implements and art work made by these Bush Negroes called Djukas also will be on display.

Benefit Luncheon For British Home of Aged

As a benefit for the British Home for the Aged in Sierra Madre, the John Ruskin Chapter, D.B.E., will give a luncheon at the home of Mrs. E. A. Hume, 241 West Montecito, next Tuesday (May 24) at 12:30 p.m.

Bridge and other card games will be played. Many lovely door prizes have been donated. Miss Adele Richardson, Regent, and her committee will receive the guests. Reservations may be obtained from Mrs. A. E. Pulling or Mrs. Alice Sedgman.

HEALTH CHECKUP FOR COMING KINDERGARTENERS TUESDAY

The P.T.A. Summer Round-Up is scheduled for 8:30 Tuesday morning (May 24) at the Sierra Madre Elementary School.

This annual examination is carried on in the interests of child health. It makes available to all children who will enter kindergarten next fall a complete medical, dental and eye check-up. Printed Summer Round-Up appointment forms are being

distributed through the local parochial schools, the Nursery school and the Elementary School. Appointments may also be made by calling Mrs. E. W. Carver or Mrs. A. Bennion.

Mrs. Harold Roberts has secured two nurses to assist her in helping the doctors: Mrs. Augusta Coates and Mrs. John C. James.

Mrs. Adam Bennion is chairman of the Round-Up and others who will aid in the project are Mrs. E. W. Carver, Mrs. Richard Forster, Mrs. Earl Morris and Mrs. Don Welles, school nurse.

DR. STORK MADE EMERITUS CHIEF OF PEDIATRICS

Well-known pediatrician Dr. Victor E. Stork, of 223 West Laurel, was awarded the title of "Chief of the Department of Pediatrics, Emeritus" of the Children's Hospital last week.

A scroll giving recognition and appreciation to Dr. Stork's 35 years as Chief of Staff of Pediatrics and Medical Director of that hospital, from which he recently resigned, was bestowed on Dr. Stork before 150 fellow pediatricians at a dinner at the California Club.

Another honor given Dr. Stork recently was the establishment of the Victor E. Stork Award—a \$5000 donation by a friend to the Children's Hospital, the income of which is to go to the interne, picked each year by a board, as being the most outstanding for that year.

Scoutin' Around WITH BERT EMBREE

LANCASTER TRIP

Troop One spent last week-end on the Luke Gervais Ranch outside of Lancaster. Highlights of the trip were swimming in the reservoir, exploring a mine shaft, and practicing for the Camporee. Seventeen boys passed some Scout tests. Most tests were related to the Cooking Merit Badge. Aside from the cool wind Saturday night, everyone had a good time. To those interested, Luke and his wife are well, and send best wishes to all.

SIGN PAINTERS

A lot of credit goes to the Cub Dens that made the window signs that I have placed around town advertising the coming Camporee. They show originality and hard work by the younger Scouts. Thanks also to Troops One, Two, and Three for the larger street signs they made to herald the occasion.

MUST REGISTER

Singing one last note of the Camporee, all visitors please remember to register at the Staff tent on the park's south lawn. Each registrant means points for your favorite troop toward winning top honors of the weekend.

PARADE TOO

See you at the Pre-Camporee Parade through town at 1:45 P. M. Saturday.

The concert will feature the Muir A Capella choir, men's and women's glee clubs, and Serenaders, also two nationally known duo-pianists, Elizabeth and Frances Copeland.

Ward Nursery Head Takes Refreshers

Jessie Ward Russell, owner of the Ward Nursery and Florist, returned last week from attending a Nurseryman's Refresher Course at the California State Polytechnic College at San Luis Obispo. She reports all the latest and most scientific methods of plant propagation and nursery management were featured.

She also just completed a series of classes in advanced floral designing in Los Angeles.

Judge Mead Honored By Shriners For Work In Hospital Drive

Judge John C. Mead this week was presented with a beautifully inscribed certificate on behalf of the Al Malaikah Temple and the Pasadena Shrine Club for his part in raising funds toward building a \$1,500,000 crippled children's hospital in Los Angeles.

The presentation was made during the Pasadena Shrine Club dinner. It was pointed out that Judge Mead raised \$4200 in subscriptions in Sierra Madre during the building fund drive which assured the success of the hospital program.

Judge Mead received the certificate from Stanton A. Bruner, past potentate of the Temple and chairman of the hospital fund.

Report Proposed Armory Site as Not Advantageous

Ed. Note: This is the last of a series of articles written by Howard W. Brod, former city engineer. This report, presented in the NEWS as a public service, was Brod's final report to the City Council. Except for highly technical discussions, it has been published in its entirety. The report is now before the City Council.

BY HOWARD W. BROD

MUNICIPAL ENGINEERING.

There is an urgent need for a precision center-line survey for the City of Sierra Madre. The present field books are in very poor condition and a tremendous quantity of survey information regarding street center-lines, angles and center-line ties are missing.

Much of the data that is available is considerably in error. Since the boundaries of private property are located on the basis of center-line information, it is of utmost importance that this information should be accurate and complete.

The desirable method of solving the problem would be to establish a network of traverses which would all be tied in with each other. This is a costly piece of work and cannot probably be undertaken all at once.

It is suggested that if funds cannot be made available to conduct a precision center-line survey of the entire city in one operation, that the project be undertaken in parts and funds allocated in successive budgets.

STREET LIGHT SURVEY

A street light survey was requested to be made by the Edison Company in December of

last year. It will be forthcoming soon. It is recommended that all future requests for street lights in the City of Sierra Madre be considered on the basis of the findings of this survey.

SEWERS.

The City Attorney has been furnished with basic information for preparation of a sewer Ordinance for Sierra Madre.

Until such time as sewers are constructed on a widespread basis, the engineering work should be done by the City Engineer and the necessary field engineering performed by outside agencies.

ARMORY SITE

It was unfortunate that the survey for the proposed armory site was ordered, made, and lease drawn up and signed by the City Council and sent to the State of California, yet the final site offered was never referred to the Engineering De-

partment for review.

It is unfortunate because the site offered and apparently accepted by the State encroaches on the only logical means of ingress and egress to the pumping plant which is vitally needed for hauling equipment into and out of the plant, said operation being necessarily conducted through the rear of the pump house.

It is recommended that the site offered to the State be shortened by twenty feet to provide a suitable access road to the pumping plant.

TITLE SEARCH FOR DEDICATION OF NORTH MICHELLINDA

It is desirable that the legal status of the north reach of Michellinda Avenue shown on the map of Sierra Madre as being a dedicated street within the city limits of the City of Sierra Madre be definitely established.

It is particularly desirable for the proper development of the property owned presently by Mr. Hanson.

The procedure to be followed is to make a map of the proposed construction showing all recorded owners of the property involved. This map should be forwarded to Mr. Ray, Chief Engineer, Title Insurance and Trust Company for an estimate of costs for a title search. On approval of such an estimate by the City Council, the Title Insurance and Trust Company should be instructed to proceed with the title search.

THE PARK DEPARTMENT

A.—It is recommended that the fish pond in front of the Park House building which

was recently filled with sand and at present presents a very undesirable appearance, be converted into a badminton court.

B.—It is recommended that all walks around the park be repaired and resurfaced and that redwood headers be provided as required.

C.—It is recommended that the picnic area be leveled and terraced and paved with plant mix.

D.—It is recommended that the Park House be painted inside and out.

E.—It is recommended that the west end of the Park House where there is considerable and extensive termite destruction, be repaired.

F.—It is recommended that the park area and other grounds that are used in connection with Youth Hut activities be maintained by the pump operator.

W.C.T.U. Meeting

Harter W.C.T.U. will meet Thursday, May 26th, at 2:00 O'clock at the home of Mrs. Ina Gray, 252 East Grandview Street.

Subjects discussed at last meeting will be voted on at this meeting.

A social hour with refreshments will follow the business meeting.

Tribute to A Friend:

For 'Lewie,' The Fire's Out

By JIM HEASLEY
Chief, Sierra Madre Fire Department

The Fire Department was saddened this week by the news of the death of Alois Karger.

To the fire fighters he was known as "Lewie." When the name "Lewie" was mentioned, one's ears alerted for something of a humorous or constructive nature. We looked to him to turn gloom into laughter.

Those who worked with him as a younger man know that many things of importance to the City and the Fire Department came about through his efforts. He was "heart and soul" in the Fire Department.

"Lewie" was a charter member in the days when there was no fire engine, and one of the very few who stayed until age forced his retirement.

He was invaluable in the early days of organization because of his ability to produce the necessary humor mixed with common sense to instill interest. He was greatly responsible for the continuance of the Fire Department in the past.

Without fun and sociability added to the hard work and sacrifices, a Fire Department would soon crumble. "Lewie" was good at both.

As a fire fighter he was always there. He was known for his speed in getting to the station across the lots from his home on Esperanza. He could be found in the midst of the fight.

He could also be found where the laughter was the loudest. His jokes will ring for ages.

He had not attended so regularly of late, but he appeared often enough to let us know that he was still a member. The younger fire fighters who were infants when "Lewie" began, had the greatest respect for him and admired him for his jovial qualities.

That jolly old St. Nick with the slightly "broken English" voice will no longer be at the Park on Christmas Eve. That was "Lewie."

The evenings at his home (following most of the fire fighters' events) will be missed. 'Twas goodfellowship of the highest type. Real comradeship. "Lewie" was a great guy and a great fire fighter. We shall miss him.

that the company would not be able to make connections to everybody at once.

As for the mass of complaints in connection with number changes, Dutro said that the telephone company has not the facilities for "indefinite interception."

It was pointed out, however, that if a "phone user gets a persistent ring but no answer on telephoning a local number, he had better check the new directory.

The California Water and Telephone Company recently put through a rash of number changes. The interception of calls to the old numbers is terminated at the end of about two weeks, however.

Dutro said that the number of changes were partly due to service changes requested by subscribers—and that subscribers were warned of the impending difficulties.

The only trouble was that the caller was left sitting and whistling to himself unbeknown that the "ring" in the phone was heard only by himself. Sierra Madreans complained to the NEWS that C.W.T.C. might at least have given out with a busy signal or a siren sound.

CITY ENTERS FIGHT

erra Madre residents in opposition to this matter."

Mrs. Lillian Young Clark of 261 Adams street was one Sierra Madre resident to attend the opening hearing. She declared that she was unalterably opposed to buses on the Sierra Madre line.

The city attorney announced that other Sierra Madre residents who wish to testify as to the inadequacy of bus service as against rail service should contact him. Cornyn can be reached at DOuglas 7-5159.

Date of the hearing during which the public will be able to answer Pacific Electric will be announced later. It will be held at the State Building in Los Angeles.

Besides asking that rail lines be eliminated, the railway has asked the Public Utilities Commission for permission to increase its loading standard. At the present time the P. E. is under an order of the commission to provide a seat per passenger at all times—including peak hours.

P. E. wants this order rescinded with a new order placed in effect allowing the loading of buses and trains to 150 per cent of seating capacity.

In addition, the company has indicated that even if buses are allowed, additional fare increases may again be sought. The company's consulting engineer, Arthur C. Jenkins, has indicated that the company will have to petition the commission for elimination of such fare privileges as commutation ticket books and reductions for round trips.

Under the company's plan for the Sierra Madre line, eight buses would be substituted for the one bus and eight rail cars now operating. It is presumed that at peak hours these buses would make through runs to Los Angeles and that a transfer at San Marino would not be required.

This switch, the company points out, would cut the present annual operating deficit of \$64,618 to an estimated \$3283 on the Sierra Madre run.

The entire system, according to company testimony, will lose approximately \$3,500,000 on rail passengers this year. Although a profit is shown on its freight business, the passenger operations eat it up and then some. P. E. President O. A. Smith declared in his testimony.

The conversion would result in a net operating profit of approximately \$700,000 the company estimated.

A request for further fare increases "may be forced upon us if other means of financial improvement are not forthcoming," Smith said. "The company is in a desperate situation."

He added: "There is actually no responsibility morally, legally or otherwise on behalf of the company to preserve rail lines and rights-of-way at heavy continuing losses to meet a possible future need of the public through a rapid rail transit program."

CONDITIONS IN FRANCE TOLD BY Mrs. Andre Pichard

One of our local residents, Mrs. Andre Pichard of 550 Oakdale, revisited her native country, France this winter. Mrs. Pichard, who had not seen the country of her birth since before the war, had some interesting things to relate about it.

Her home town, just outside of Paris, was completely destroyed. The price of goods in dollars is about what it is here, but few people can afford to buy because of their low incomes. Soup is the mainstay of the diet for the majority, and for the most part, their evening meal. Clothes are plentiful, but only the very wealthy can afford them, she said. There is no rationing except for coffee.

There has been practically no new building or building improvements because of the lack of materials. Consequently the structures now standing are fifty percent below standard.

English is spoken everywhere, and broadcasts from America are listened to almost exclusively, especially "The Voice of America," which is really enjoyed, she said.

"Practically all the young ones are dying to get out of Europe," stated Mrs. Pichard.

The hardest hit of the French people are the ones too old to work, who had felt themselves secure with income from savings or property, "which of course has all been wiped out," she said.

Most factories in the south of France are still closed, but Mrs. Pichard feels sure that if we can help by supplying the people with farm machinery, among other things, and feed for the livestock, the country will return to its former state of prosperity.

Happy Birthday!

One of the nicest birthday presents you can give a relative or friend is a telephone call... especially if she (or he) is far away.

Although long distance telephoning is of common occurrence today, there is always a thrill in receiving a call on your birthday... and a "long distance" birthday gift is not expensive. For instance, you can talk with someone on the East Coast for only \$2.50 (plus tax) for three minutes... and make that someone very happy.

TRIO OF PLAYS OPENS AT PADUA HILLS THEATRE

Offering a distinct innovation in theatrical fare is "A Night at Teatro Lirico", introducing a trio of musical one-act plays of Spanish origin favored in Mexico which opened last night at the Padua Hills Theatre.

The plays of "A Night at Teatro Lirico," which might be considered musical comedies in miniature, are known as zarzuelas.

Each of the zarzuelas introduces songs, dances and dialogue, both in English and in Spanish, with "entre actos," or between-the-acts numbers, familiar to audiences in this country.

These zarzuelas are from the collection of Miguel Velasquez of Puebla, Mexico, father of Francisco Velasquez, a new member of the Mexican Players. Francisco is widely known throughout this country as a musician and one of the few players of the salterio, a distinctive Mexican instrument.

"A Night at Teatro Lirico" will be staged Wednesday through Saturday evenings and Wednesday and Saturday afternoons, through June 25.

WATER COLOR EXHIBITS

AUTO CLUB'S TRIP OF THE WEEK

The Scenic San Jacintos

Visiting several historically interesting communities... through sites of romance and drama... into a lofty Alpine valley... over a titanic mountain range... through miles and miles of virgin forest... seeing several famed fruit-producing areas... these are but the highlights of this week's delightfully scenic tour.

1. Riverside is our theoretical starting point and one might visit the famed Mission Inn hostelry, home of one of the world's finest collections of antiques, curios and relics, see the Peace Tower and Father Serra Cross at Mt. Rubidoux, drive down picturesque Magnolia and Victoria avenues and see the Parent Navel Orange Tree during a short stay...

2. Approaching the towns of San Jacinto and Hemet, several mineral hot spring resorts may be noted. This area is known as the Ramona country because it is the site of the closing incidents in the life of Ramona in Helen Hunt Jackson's novel of that name. Soboba has been widely acclaimed for its picturesque style of Indian architecture. Lower photo shows one of the natives of the Soboba Indian Reservation...

3. Idyllwild, a favorite retreat for mountain lovers, is an extensive resort situated within a beautiful, horseshoe-shaped Alpine valley. Hikers, strong of limb, often climb to the summit of nearby Mt.

San Jacinto (center photo), making the trip in one day...

4. The route between Idyllwild and Banning is the most spectacular and scenic part of the trip. The majestic San Jacintos are continually visible and motorists may be tempted to pull into one of the many turnouts along the route and feast their eyes on this vast panorama of rugged mountain beauty...

5. The Banning-Beaumont area is noted for its excellent fruit orchards. The annual Beaumont Cherry Festival will be held this year on June 10, 11 and 12. Top photo illustrates a typical early summer scene in this area...

6. Redlands, deriving its name from the red soil of the region, is a quiet residential community with tree-lined streets and a profusion of flower gardens and green lawns. It is the trading center of a large citrus area.

SAN GABRIEL VALLEY CONCERT GROUP FINALE IN MONROVIA

LIGHT OPERA TO GIVE RED MILL

Yielding to the popular request of many of its patrons, The Light Opera Association of San Gabriel Valley is presenting "The Red Mill" for its next production. President Dr. Jack Loop said today that a survey of the many thousands who have seen the first two productions, revealed a preference for this, the greatest of Victor Herbert's many light operas.

Sets carrying full authenticity have been procured for the production, which will open June 1 at the Mission Playhouse in San Gabriel for a four-day run.

Catholic High School Plan

A zoning board of the Pasadena Planning Commission this week had under consideration a petition for a zoning variance which would allow the construction of a Catholic High School at the corner of Sierra Madre boulevard and Michillinda avenue.

At an adjourned hearing last week, the board heard both an appeal on behalf of the Roman Catholic Archbishop for approval and protests from Sierra Madre residents of the area.

Residents contended that the high school for 1000 boys and girls would create traffic problems in the residential area and reduce the value of homes.

Appearing before the zone board, made up of Commissioners Raymond A. Dorn and Harold J. Bissner, were: R. D. Andrews, 692 W. Sierra Madre boulevard; M. G. Linder, 60 S. Michillinda; Albert Barkman, 40 S. Michillinda; Mrs. Earl P. Benson, 559 W. Sierra Madre boulevard, and Mrs. Ralph B. Wilson, 685 Mariposa avenue.

The school planned for the ten-acre site will be ready for occupancy by September 1, 1950, if the Pasadena Commission grants the variance.

Sierra Madre's City Council already has asked the Pasadena board to require additional parking area in the event that the zone variance is granted. This, the Council said, would be necessary to avoid parking congestion on Sierra Madre's streets.

BANK MODERNIZATION

occupied by Webb's Barber Shop. A directors' room has been added. Counters have been rearranged and an additional teller's window was added. In addition, the bank's 1000 safety deposit boxes have been increased by 300.

The building was first built in 1907. This project is the first major change made since then. Although the building's reconstruction was first planned in 1940, materials shortages were encountered and a postponement was required.

Completion of the project was announced Monday, the 27th anniversary of the bank's incorporation under State charter.

Originally chartered in 1907 as the First National Bank of Sierra Madre, this community owned and operated institution was re-chartered in 1922 as the Sierra Madre Savings Bank. In 1946 the name was changed to the Bank of Sierra Madre, as approximately half of its deposits are in commercial accounts.
